

Ordering Information

Helpful Hint: for best photo quality use a first generation photo. Photos uploaded to Facebook or other social media reduce the file size and quality of your photo when uploaded. It's best to find the original photo and not one that's been uploaded and downloaded. Especially for a larger items like blankets, good resolution is important. Also, if your photo had been taken by a professional photographer, you must have purchased the rights to reproduce or contact the photographer for a copyright release and include a copy.

Item	Description	Price		QTY	Total
